Cavotec reeler gearboxes

Cavotec reeler gearboxes are specially designed and manufactured for use in industrial cable reelers. With more than 35 years of experience of this technology, we have the manufacturing expertise required to remanufacture your Cavotec reeler gearboxes quickly and efficiently, restoring them to their original condition, and ensuring your reeler units perform at their best.

Cavotec Service Centres

All Cavotec Service Centres have a workshop facility with trained and certified experts to remanufacture Cavotec components. The workshops are equipped with special tools, testing equipment and genuine spare parts to ensure fast turnaround times.

CavotecReman covers the following gearbox models:

T series - T4, T5, T6, T7, T600.

H series - H10, H20, H40, H120, H200.

CavotecReman Service Centre in Perth, Australia
