

CavotecInspect Inspection Program

Benefits

Status report

Immediate status report of your Cavotec asset including early identification of equipment problems and an estimation of future maintenance requirements

Detection of issues

Early detection of operation or maintenance issues

Optimal operation

Itemised spare and wear part requirements to guarantee optimal operation

CavotecInspect is a key service product to ensure that your Cavotec equipment operates reliably and its availability for operation is maximised.

At any time in the life cycle of your Cavotec equipment, you can subscribe to a CavotecInspect Inspection Program, performed by certified Cavotec experts. This program can be conducted on a regular basis as part of our CavotecCare Service agreement.

With its extensive program of condition and performance checks of the mechanical, hydraulic and electric systems of your Cavotec equipment

plus detailed safety checks of personal protection devices, you can keep operating costs low and optimise the utilisation of your system.

The report contains key findings, including operation or maintenance issues, recommended scope for future maintenance, list of recommended consumable spare parts and critical spare parts.

Cavotec is a leading cleantech company that designs and delivers connection and electrification solutions to enable the decarbonization of ports and industrial applications.
