Protecting your Cavotec Investment is the focus of our CavotecReman Program for fast, high quality Reman-ufacturing of your Cavotec Fiber Optic Rotary Accumulators (FORA).

### **Cavotec FORA**

Cavotec FORA are specially designed and manufactured for use in industrial cable reelers. With more than 35 years of experience of this technology, we have the manufacturing expertise required to remanufacture FORA units quickly and efficiently, maximising reliability and uptime.

### **Cavotec Service Centres**

All Cavotec Service Centres have a workshop facility with trained and certified experts to remanufacture Cavotec components. The workshops are equipped with special tools, testing equipment and genuine spare parts to ensure fast turnaround times.

FORA unit before CavotecReman

FORA unit after CavotecReman

Cavotec is a leading cleantech company that designs and delivers connection and electrification solutions to enable the decarbonization of ports and industrial applications.
