

Declaration of conformity for antennas used in EX systems

We declare that our EX radios is equipped with a diode safety barrier so the effect on the antenna output is according standards EN/IEC 60079-0 and EN/IEC 60079-11 for equipment group I and II (M1/ zone 1).

This means that the antenna connected to our EX systems is defined as "simple apparatus" and do not need to have a separate EX approval.
